

Brazilian Pepper Busting
Thursday, April 9, 2015
8am

Meeting Location: North Entrance of Island Estates

Ann Bulter and her team with the Scenic & Historic A1A Coastal Byway Committee (Friends of A1A) will be volunteering their efforts to eradicate Brazilian Pepper plants along A1A adjacent to the Island Estates north entrance and the Hammock Dunes South Entrance Gate. This will be the last volunteer day this Spring. Hammock Dunes property owners are welcome to join the Committee...volunteers are needed and appreciated. They will work starting at 8am. You will need to wear long pants, long sleeved shirt, gloves, eye protection, sunscreen, and/or bug spray. Be sure to bring plenty of fluids for hydration. Bring loppers if you have them. If you don't have some of these items, no problem...some of the volunteers will have extra. If you would like to just watch and learn more about invasive plants, you are welcome to attend the work party. Hope you can join!

Questions, contact Ann Butler, annbutler110@cfl.rr.com
