

### FEMA UPDATES

FEMA representatives visited Hammock Dunes on October 18, 2016 and October 25, 2016 to provide contact information for all our property owners to be able to register for possible recovery of Hurricane Matthew storm damage costs.

Whether you have homeowners insurance of any type, or not, you may want to register before the 60 day application window closes. The Hurricane Matthew number is **DR4283** and needs to be used when filling out electronic FEMA forms, or telephoning their contact number.

All residents should register as soon as possible; information can be added later.

Beware of fraudulent impersonators of FEMA representatives. True FEMA representatives will have a photo I.D. and never ask for personal information. Your personal information is only collected once when you register. After that, you will be given a case file number and this is the only information a true FEMA representative will request.

- You can contact FEMA by:  
Telephone: 1-800-621-3362
