

Motor Cycle Registration Process and Vehicle Noise Regulation

In an effort to reduce the level of noise in the community, the HDOA Board has approved a "Rule Regarding The Operation of Nuisance Vehicles within the Hammock Dunes Community". The Rule provides for the enforcement of the State of Florida noise standards for all classes of vehicles. Residents can file a complaint with Southern States Management Group (446-6333) if they feel a particular vehicle exceeds the State standards. Complaints should include information on the make, model, color, license plate number, and the address where the vehicle is garaged, if possible. Should you be informed that your vehicle is the subject of a complaint; a test will be conducted by Southern States Management Group, Inc. to determine the actual decibel level.

The Rule also requires that all **member-owned motorcycles** being operated in the community be registered with the HDOA through Southern States Management Group. Registration must include the make, model, serial number, a copy of the current registration card, license plate number, and the address within Hammock Dunes where the motorcycle will be garaged.

Please refer to the enclosed copy of the Rule for further details. Also, the Board reminds residents that in a separate resolution passed in 2006, nonmember-owned motorcycles are banned from Hammock Dunes.

REGISTRATION FORM

Date: _____

Last Name: _____ First Name: _____

Hammock Dunes Address or Lot #: _____

Motorcycle Information:

Copy of current registration:

Make: _____

Model: _____

Serial #: _____

License Plate #: _____
